

Welcoming back international students to Sancta Maria College for terms 3 and 4 2022 and 2023

Apply to study

The NZ Government has made the announcement that it will bring the border opening forward to the end of July instead of the end of October – this is great news for our school. The time to apply for a place is now. Please use the following link [Sancta Maria College Signup Form \(enrol.school.nz\)](https://enrol.school.nz) to apply

- Short term visits of up to three months from Sunday 1st May at 11.59 pm and students interested in trialling high school at Sancta Maria College
- Long term enrolments from term 3 – as soon as visas have been approved.

Once we have received your application we will be able to keep you up to date with any developments so you can commence study at Sancta Maria College as soon as possible.

Self-isolation

There are no self-isolation requirements upon arrival into NZ – however you will be asked to take a Rapid Antigen Test when you get here. Currently you are still required to lodge a negative Covid result prior to flying to NZ.

Under year 9 international student review

After a review process for international students under Year 9, the NZ government has made the decision that this age group should continue. We welcome applications for students from Years 7 to Year 13 at Sancta Maria College.

Return to Home Country

International students who are currently in New Zealand and have a valid visa with multiple entry conditions*, can go home at any time from now and return to New Zealand after 12 April.

Students will be subject to quarantine conditions both at their destination and on their return to New Zealand.

* Not all student visas allow for multiple entries.
